

## POS Checklist - Add on for Module, Gas Hob & HC

<p><b>FT or Postcode:</b></p> <p><b>Customer Name:</b></p> <p><b>Customer Address:</b></p>	<p><b>Cooker details:</b></p>   	<p><b>Our shop will discuss this form with you while you are placing your order. If necessary you are welcome to take the form away and discuss the points raised with your contractors.</b></p> <p><b>If you take the form away with you, please return the completed copy to your Aga store at your earliest convenience. This will assist us with finalising your installation.</b></p>
--	---	---

	Questions	Y	N	Notes
Rear wall	<p>What type of wall is behind the cooker? If the inner wall is plasterboard or another combustible material, fire board will need to be fitted behind the cooker.</p> <p><b>Details of this are found in the installation instructions.</b></p>			
Electrics	<p>If applicable, where are you planning on positioning your electrical connections? The electrics need to be accessible for connection and also for servicing purposes in the future so therefore can't be above or behind the cooker position.</p> <p><b>Full details of this can be found in the installation instructions</b></p>			
Gas supply (Gas module & Hob only)	<p>A suitable domestic gas meter and supply is required for the cooker.</p> <p><b>Details of the position and pipe requirements are found in the installation instructions.</b></p>
